

Software Product Release Notes

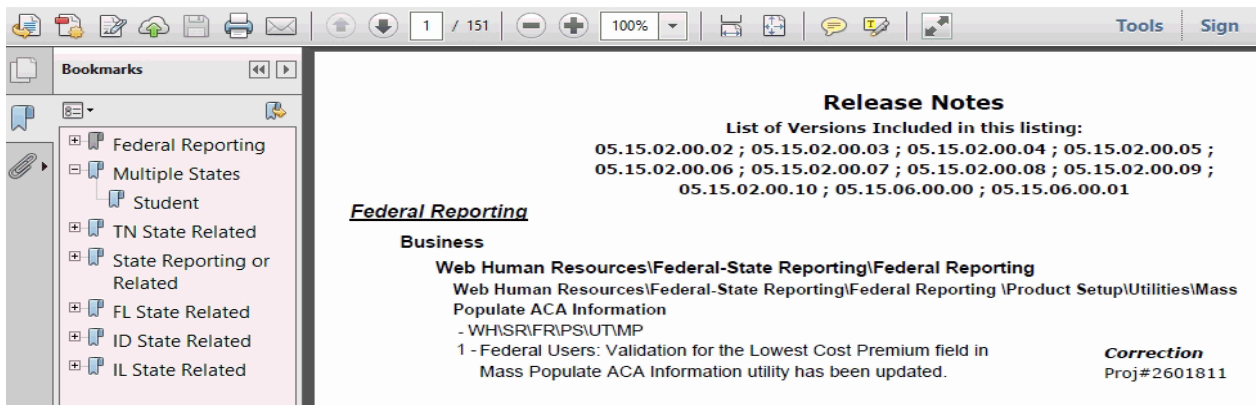

List of Versions Included in this listing:

05.18.02.00.03 ; 05.18.02.00.04 ; 05.18.02.00.05 ; 05.18.02.00.06 ;
05.18.02.00.07 ; 05.18.02.00.08 ; 05.18.02.00.09 ; 05.18.02.00.10 ;
05.18.02.00.11 ; 05.18.02.00.12 ; 05.18.06.00.00 ; 05.18.06.00.01 ;
05.18.06.00.02

These release notes are organized into groupings, based on the menu path of the project. The first level is Federal reporting, State reporting (or related), or General Updates. Within those groupings, notes are divided between Systemwide, Business Systems, and Student Systems. Within those areas, they are divided into module groups (menu paths with similar data areas), then sorted by menu path.

For ease of viewing, and utilization of bookmarks, we recommend that you download and save this file, and open it locally with your PDF viewer, as some browsers may not support viewing of bookmarks (Chrome). In Firefox, you can access the bookmarks by clicking on the Toggle Sidebar icon in the upper left corner of the reading pane.

Once downloaded, to navigate, you should be able to use your pdf reader's bookmarks in the left slider bar. By clicking on the bookmark icon, the bookmarks will display. The actual display may vary depending on your pdf viewer and version.

You can expand an area by clicking on the "+", collapse it by clicking on the "-" to the left of the heading. You can use the slider bar in the bookmark window to navigate and select any section to view it. Depending on your pdf reader, you may be able to select the area, right mouse click, and print that section in one action.

Federal Reporting

Business Management System

Account Management

Financial Management\Account Management\Year End

Financial Management\Account Management\Year End\Account Management\1099M Processing

- FM\AM\YE\AM\PR (PaC)

- 1 - Federal Users: 1099M State ID validations now display consistently for Idaho, Indiana, Wisconsin, and Oregon. The OK button now displays a validation message if the selected state has a requirement regarding the State ID field and the Report Type is set to a value other than "No State Reporting."

Correction
Proj#3599555

Employee

Web Human Resources\Employee\Product Setup

Web Human Resources\Employee\Product Setup\Utilities\ACA Utilities\ACA 1095 Import

- WH\EP\PS\UT\AC\AI

- 1 - Federal Users: An option to remove existing covered individuals has been added to the ACA 1095 Import utility, which will allow clearing out of existing covered individuals from the employees in the import file.

Enhancement
Proj#3628756

Web Human Resources\Federal-State Reporting\Federal Reporting

Web Human Resources\Federal-State Reporting\Federal Reporting \W-2 Corrections

- WH\SR\FR\WC

- 1 - Federal Users: W-2C Processing is now available in Web Federal Reporting. An email explaining this option in more detail, along with a link to the manual, will be sent to users soon.

Enhancement
Proj#3549655

Payroll

Human Resources\Payroll\Utilities

Human Resources\Payroll\Utilities\Payroll\Tables\Payroll Tables

- HR\PA\UT\PA\TA\PT (PaC)

- 1 - Federal Users: The 2018 Michigan state tax table has been updated. The exemption amount has been changed from 4,000 to 4,050. The Skyward system table, SYS-HPATBL-MI, will need to be loaded to activate the new tax table prior to running payroll processes. **Enhancement**
Proj#3699035
- 2 - Federal Users: The 2018 Michigan state tax table has been updated. The exemption amount has been changed from 4,000 to 4,050. The Skyward system table, SYS-HPATBL-MI, will need to be loaded to activate the new tax table prior to running payroll processes. **Enhancement**
Proj#3696968
- 3 - Federal Users: The Utah State Payroll tax table has been updated. The Payroll process will now calculate the Utah State taxes based on the new formula provided by the state. The Skyward system table "SYS-HPATBL-UNIVERSAL" will need to be loaded to activate the new tax table prior to running payroll processes. **Enhancement**
Proj#3676332
- 4 - Federal Users: The Louisiana state tax table has been updated for 2018. In addition, validations have been added for the State Allowances field in the Profile when the Tax State is LA. **Enhancement**
Proj#3631258
- 5 - Federal Users: The North Dakota state tax table has been updated for the 2018 tax year. This includes the Allowance increasing to \$4150 from \$4050 and an increase in the Wage Levels for both the Single and Married tables. **Enhancement**
Proj#3633139
- 6 - Federal Users: The Oregon tax table has been updated for 2018. Corrections were made to the browse and report. To see the updates, verify that the SYS-HPATBL-UNIVERSAL system table has been loaded by navigating to Web Product Setup > Skyward Contact Access > Tools > System Table Load History. **Enhancement**
Proj#3614909

Human Resources\Payroll\Year End

Human Resources\Payroll\Year End\Payroll\Calendar\1094C\1095C Processing

- HR\PA\YE\PA\CA\CP (PaC)

- 1 - Federal Users: When synchronizing a replacement record or an entire workfile, the workfile records will no longer be marked as "Corrected." This affects both 1095C Processing and 1095B Processing. **Correction**
Proj#3659442

Human Resources\Payroll\Year End\Payroll\Calendar\W2 Printing

- HR\PA\YE\PA\CA\PR (PaC)

- 1 - Federal Users: W2 Printing has been corrected to print the Check Location on the Pressure Seal forms (#80640) when the option to do so is selected with a sequence option that includes location. No further user steps are necessary to activate this change. **Correction**
Proj#3605960

Human Resources\Payroll\Year End\Payroll\Previous Years\1094C\1095C

- HR\PA\YE\PA\PY\CP (PaC)

- 1 - Federal ACA Users: When ACA electronic files are created for previous years, the Manifest Files will use the current year's (currently 2017) schema. The Request Files will use the schema for the submission year. No further user steps are necessary to activate this change. **Correction**
Proj#3611033

Human Resources\Payroll\Year End\Payroll\Previous Years\W2

- HR\PA\YE\PA\PY\WP (PaC)

- 1 - Federal Users: For Previous Years W2 processing, Step 5 is now accessible for viewing the date/time stamps for the original electronic files and for extracting copies of the original electronic files. No further user steps are necessary to activate this change. **Correction**
Proj#3595188

Web Human Resources\Employee\Employee Browse

Web Human Resources\Employee\Employee Browse\Profile Tabs\Tax - W4

- WH\EP\TB\ET

- 1 - Federal Users: The W4 Federal Tax Status option for "Single" was updated to display as "Single/Married Single Rate" to clarify the purposes of this field selection. **Enhancement**
Proj#3687269
- 2 - Federal Users: The W4 Federal Tax Status option for "Single" was updated to display as "Single/Married Single Rate" to clarify the purposes of this field selection. **Enhancement**

State Reporting or Related

Multiple States

Payroll

Human Resources\Payroll\Reporting

Human Resources\Payroll\Reporting\Payroll\State - Federal\Unemployment Compensation

- HR\PA\RE\PA\SF\UC (PaC)

- 1 - All Users: An Unemployment Compensation State Override field has been added to the Tax Information setup in the Employee Profile. When creating the workfile for the Unemployment Compensation Report, a report is generated that will display all employees for whom neither the Tax State nor the UC Override State match the site's State. These employees will be excluded from the workfile. For Minnesota users, these same changes are applicable to the Quarterly Wage Detail Report. These changes are not applicable to Washington users. **Enhancement**
Proj#3613086

Health Records

Web Student Management\Office\Health Records

Web Student Management\Office\Health Records\Vaccinations \Compliance Groups

- WS\OF\HR\VA\CG

- 1 - All Users: The 2018-2019 school immunization requirements have been created for all states. **Enhancement**
Proj#3591349

FL State Related

FL State Related - Business Management System

Employee

Web Human Resources\Employee\Employee Profile

Web Human Resources\Employee\Employee Profile

- WH\EP\EP

1 - Florida Users: The DOE Exempt from Public Records list of classifications was updated with the following options:

Enhancement
Proj#3650023 +

1. Investigative personnel of the DFS
2. Investigative personnel of the OFRBF
3. State attorneys/statewide prosecutors
4. Investigators/inspectors of the DBPR
5. County tax collectors
6. Impaired practitioner consultants
7. Emergency Medical Technicians/Paramedics
8. Personnel of Inspector General/Internal Audit

No additional user steps are needed to activate these updates.

Web Financial Management\Federal-State Reporting\Florida Cost Report

Web Financial Management\Federal-State Reporting\Florida Cost Report\Financial Forms\Forms

- WF\SR\CR\FD\FB

1 - Florida Users: The Cost Report Form 6 screens and reports have been updated with new headings. The previous heading "Other" is now "Prekindergarten" and the previous heading "Recreation and Enrichment" is now "Other Instruction." The Form 6 maintenance screen takes the values directly from the year's definitions, so reviewing older Form 6 items will list the old headings. These changes were made at the request of the Florida DOE. You will need to process the system table load for the "SYS-CTD" table to see the new headings.

Enhancement
Proj#3643584

Web Financial Management\Federal-State Reporting\Florida Cost Report\SATSY\Survey and Payroll Imports\Skyward Payroll Data Imports\Import Payroll Data

- WF\SR\CR\TD\ID\SP\IP

1 - Florida Users: When the Cost Report Payroll Import cannot find a Teacher Master record, the update step creates a Teacher Master record. The new Staff Number Identifier, Local on the Teacher Master is not the same for every district. The Payroll Import now includes an option to identify how to populate the Staff Number Identifier, Local. No additional user steps are necessary to activate these changes.

Enhancement
Proj#2515426

Web Financial Management\Federal-State Reporting\Florida Cost Report\SATSY\Teacher Course

- WF\SR\CR\TD\TC

1 - Florida Users: The Cost Report's Teacher Course browse has been updated with a new view by the Florida Education ID and lists the Local Staff Number Identifier. This update was made to assist in identifying the teachers. No additional user steps are necessary to active this change.

Enhancement
Proj#2515539

Web Financial Management\Federal-State Reporting\Florida Cost Report\SATSY\SATSY Masters

- WF\SR\CR\TD\TM

1 - Florida Users: The Cost Report, SATSY Master browse now has a new view with the Florida Education ID. No additional user steps are necessary to activate this change.

Enhancement
Proj#2515465

Web Human Resources\Employee\Product Setup

Web Human Resources\Employee\Product Setup\Utilities\Florida Education Identifier (FLEID) Utilities\Export FLEID File

- WH\EP\PS\UT\FI\EX

- 1 - Florida Users: When processing the export of the FLEID, the Multi-Birth field will now report as an "X" and the Certification Number field will default to blanks when not available. The exported file name was also updated to now contain a .txt extension. No additional user steps are necessary to activate these changes.
- Enhancement**
Proj#3607351 +

Web Human Resources\Federal-State Reporting\Florida State Reporting

Web Human Resources\Federal-State Reporting\Florida State Reporting\Retirement\Export Extracted Retirement Data

- WH\SR\FL\RT\EX

- 1 - Florida Users: The FRS Retirement process has been updated to always extract and export the employee address information for Retirement reporting. Previously, the address information was only sent on New Enrollments and Address Changes. No additional user steps are needed to activate these updates.
- Enhancement**
Proj#3668592

Web Human Resources\Federal-State Reporting\Florida State Reporting\Retirement\Maintain Extracted Retirement Data

- WH\SR\FL\RT\MD

- 1 - Florida Users: When an individual is manually added to the Maintain Extracted Retirement Data browse, the address information is now automatically populated from the employee's profile. No additional user steps are necessary to activate this change.
- Correction**
Proj#3692176

Web Human Resources\Federal-State Reporting\Florida State Reporting\Surveys\Product Setup\Codes\Survey State Defined Codes Maintenance

- WH\SR\FL\SU\PS\CO\SC

- 1 - Florida Users: The Master School ID List has been updated using the latest file at **Enhancement**
<http://doeweb-prd.doe.state.fl.us/EDS/MasterSchoolID/index.cfm>.
This was done to ensure all current Florida schools are listed and available to any state reporting processes in the software. The system-tables, SYS-CTD and SYS-CTM, must be loaded to see the updates.
Proj#3699535

- 2 - Florida Users: The DOE has revised the "Personnel Evaluation" Data Elements and Edits, which required the following updates to the Survey Extract. **Enhancement**
Proj#3701130
 1. The default value if an employee was not evaluated is I for Survey 3, except new hires will default to H.
 2. The Staff Demographic Edit 1P states that specific job codes should default to a Z.No additional steps are necessary to activate these changes.

- 3 - Florida Users: The Master School ID List has been updated using the latest file at **Enhancement**
<http://doeweb-prd.doe.state.fl.us/EDS/MasterSchoolID/index.cfm>.
This was done to ensure all current Florida schools are listed and available to any state reporting processes in the software. The system-tables, SYS-CTD and SYS-CTM, must be loaded to see the updates.
Proj#3623699

- 4 - Florida Users: The DOE has revised the "Personnel Evaluation" Data Elements and Edits, which required the following updates to the Survey Extract. **Enhancement**
Proj#3635511
 1. The default value if an employee was not evaluated is I for Survey 3, except new hires will default to H.
 2. The Staff Demographic Edit 1P states that specific job codes should default to a Z.No additional steps are necessary to activate these changes.

- 5 - Florida Users: Survey Job Codes "55052" and "52015" were added to the set defaults on Survey 5 reporting to "Z," which will prevent the "1U" Survey Staff Demographic error from inaccurately displaying. No further user steps are necessary to activate this change. **Enhancement**
Proj#3658197

Web Human Resources\Federal-State Reporting\Florida State Reporting\Surveys\Product Setup\Utilities\DOE & Extracted Data Comparison

- WH\SR\FL\SU\PS\UT\DE

- 1 - Florida Users: The DOE & Extracted Data Comparison utility has been corrected to appropriately validate the Federal Race and Ethnicity fields. **Correction**
Proj#3628146

Web Human Resources\Federal-State Reporting\Florida State Reporting\Surveys\Processing Options\Exception Check Extracted Survey Data

- WH\SR\FL\SU\SU\EC

1 - Florida Users: For the 2017-2018 Survey Reporting year, the Staff Demographic Edit Rule 6 has been updated and the Fiscal Year Salary Edit Rules 30 and 31 have been removed, per FL DOE specifications. The SYS-CTD system table must be loaded in order for the edit changes to take effect. **Enhancement**
Proj#3714732

2 - Florida Users: For the 2017-2018 Survey Reporting year, the Staff Demographic Edit Rule 6 has been updated and the Fiscal Year Salary Edit Rules 30 and 31 have been removed, per FL DOE specifications. The SYS-CTD system table must be loaded in order for the edit changes to take effect. **Enhancement**
Proj#3696760

Web Human Resources\Federal-State Reporting\Florida State Reporting\Surveys\Processing Options\Extract Survey Data

- WH\SR\FL\SU\SU\ED

1 - Florida Users: The Survey Salary Schedule Pay Type field is now set to "B" when using the extract parameter, "Use Cross References to determine DOE Pay Type," and the employee was hired (Employment Date, Original Position) or started (Employment Date, Continuous Employment) after 07/01/2014 for instructional or administrative positions. No additional user steps are necessary to activate this change. **Enhancement**
Proj#3610088

Payroll

Human Resources\Payroll\Current Payroll

Human Resources\Payroll\Current Payroll\Pre-Verify

- HR\PA\CP\PV (PaC)

1 - Florida Users: The Florida DOE-399 Project Exception Report found in the Payroll Pre-Verification Reports and the Post-Verification Reports will now check for the currently active Payroll Run Number. No additional user steps are necessary to activate this change. **Correction**
Proj#3605530

FL State Related - Student Management System

Attendance

Web Student Management\Office\Attendance

Web Student Management\Office\Attendance\Product Setup \Utilities\Update Day Status

- WS\OF\AT\PS\UT\UD

1 - Florida Users: An option has been added to the Update Day Status utility to clear the Day Status on Attendance records that do not meet the new update's requirements. **Enhancement**

Proj#3557857

Web Student Management\Federal-State Reporting\Kansas State Reporting\Other Exports\Kansas Discipline Data Collection\View Exported Files\Save Locally for Submission

- WS\SR\KS\OE\KD\VS

- 1 - Kansas Users: An initial version of the new Discipline Data Collection has been included. This basic update for the 2018 school year only, will provide a way to export existing 2018 Discipline records to a comma delimited text file (.csv file format) compatible with KIAS. This update will convert as much existing data as possible to the new fields and codes, but there are many differences between KAN-DIS and the new Discipline Data Collection, so it is strongly recommended that customers review this file carefully before upload. Final updates are likely to be required and these may vary between districts, but this option should eliminate a large amount of the work needed to report data entered toward KAN-DIS reporting in the new Discipline Data Collection format for the current 2018 school year. There are two options:
1. Recommended: The exported file can be opened in any spreadsheet program. Then the records can be copied and pasted into the state's own provided Excel-based Discipline Data Collection Import Template to review before final upload.
- Enhancement**
Proj#3709026

The state's Import Template provides a special 9-row set of headers with detailed specifications included. That Import Template can be obtained from the KSDE web site at:
<http://www.ksde.org/Agency/Division-of-Learning-Services/Early-Childhood-Special-Education-and-Title-Services/KIAS-Kansas-Integrated-Accountability-System/Discipline-Data-Collection>
Other documents are also provided at that URL, along with contact information should you have trouble with the field definitions or understanding the collection itself.

2. Alternatively, the exported file can be uploaded to KIAS as is, and reviewed and finalized in the KIAS application itself. If updates are made to the data after exporting, remember to make the same update in the live data. Export again or if finalizing in KIAS, update to make sure the records match. Existing 2018 records will not be changed in future updates.

Skyward is continuing to work on the new Discipline Data Collection updates. Many districts have volunteered to provide testing and feedback and we welcome this. Just create a service call with Skyward if help is needed with Skyward itself.

Once the 2018 Discipline Data Collection submission window is closed and current year records will no longer be affected by screen or code changes, new updates will complete changes to allow Discipline records in the 2019 school year to be entered with those updated screens, fields, codes, and extract options.

Web Student Management\Federal-State Reporting\Kansas State Reporting\Other Exports\LPR Data\Export LPR Data

- WS\SR\KS\OE\LD\IED

- 1 - Kansas Users: The LPR-Assignment collection extract will now correctly count a class for each primary teacher in a section, even if there are multiple teachers in multiple meet patterns assigned to the same section of a course.
- Enhancement**
Proj#3629894

Grading

Web Student Management\Office\Grading

Web Student Management\Office\Grading\Transcripts\Reports\Transcript

- WS\OF\GR\TR\RE\TR

- 1 - Texas Users: In response to notification from districts regarding the use of STAAR EOC Performance Level and Score reporting for students with a Score Code other than S, we have added a setup option to allow districts to choose whether or not to include these test results on AARs. If your district chooses not to report STAAR EOC data on AARs when the student received a code other than S for their Score Code, please take the following steps: **Enhancement**
Proj#3620999
1. In Test Builder, at WS\OF\CA\TS\TB, expand a STAAR EOC test and then expand the EOC Summary Setup section.
 2. For EOC Summary Mode, select Score.
 3. Edit the Score Code Location.
 4. Under the Scores area of Test Score Information, find "Score Code" and select it; then Save.
- Once these steps have been completed for each STAAR EOC test, Skyward will display the test information, along with the Score Code, in the STAAR EOC subtab under Test Scores in Student Profile. However, when AARs are printed, any test that does not have an "S" Score Code will not be used to populate STAAR EOC test information, regardless of the score or performance level achieved. This will ensure that any student caught cheating on a test will not have information from that test included in their AAR.

- 4 - Texas Users: The Contact Hours Report Combine Table I Tracks option has been updated to only be specific to Table I. The Combine Table II-IV Data option is available for selection from 000. Further updates will be available in the future.

Correction
Proj#3691211

- 5 - Texas Users: The Contact Hours report has been updated with several enhancements. First, when combining track data, the instructional tracks will display at the top of each table. We also added an option to print only combined tables. Finally, the signature page has been updated to include the relevant reporting periods at the top.

Enhancement
Proj#3656210

- 6 - Texas Users: The Contact Hours district level reports now have the option to Combine Table II-IV Data. This option will include the combined data at the end of the report. Additionally, the Superintendent's reports will now only be shown in the 000 entity while the Principal's reports will only be shown at the entity level.

Enhancement
Proj#3241951

- 7 - Texas Users: The Contact Hours report has been updated to include additional reporting on OFSDP-specific Table I data. As indicated in the Student Attendance Accounting Handbook in Section 2.3, ineligible days present and total ineligible minutes for OFSDP students need to be reported per 6-week reporting period, by grade level. Eligible days and minutes present also need to be reported for bilingual/ESL, pregnancy-related services, and special education mainstream for OFSDP students per 6-week reporting period. The Contact Hours report has been updated to include these additional fields in Table I. Please note, the additional fields do not affect calculated values in the table; their presence was added so that districts may run the report and be compliant with all requirements listed in Section 2 of the SAAH.

Enhancement

Web Student Management\Federal-State Reporting\Texas State Reporting\Texas Student Data System (TSDS)\TSDS Unique ID

- WS\SR\TX\TS\TU

- 1 - Texas Users: The TSDS Enrollment Events process has been updated so that Status Changes will no longer generate records for invalid events. Additionally, system-wide users will be allowed to change the start date for the TSDS Enrollment Event process. Finally, the withdrawal records will now be correctly reported when the Entry Date is before the TSDS Enrollment Events Start Date, but the Withdrawal Date is after.

Enhancement
Proj#3652578

The default start date remains 3/12/18. For districts that require an earlier date, please follow these steps:

1. Navigate to Product Setup > Skyward Contact Access > District Setup > Configuration > State Reporting Configuration.
2. Edit the TSDS Enrollment Events Start Date field as needed.
3. Save.

If TSDS Enrollment Event data has been previously exported, there is now an option that will reset the system back to its initial state, which means that all previously-exported Transmission file data will be removed from the database. This is not required and is only intended to be used before actual reporting to TEA begins. This can be useful to districts that have already created export files and wish to recreate them after updating their database with this PR. Please use caution, as using this process once data has been reported to TEA will result in duplicate records being created upon the next extraction. Here are instructions on how to reset the Enrollment Events system:

1. Navigate to Product Setup > Skyward Contact Access > Tools > Fix Programs.
2. Click the Add button.
3. For the Program field, enter: zfxtxedit013.w.
4. For the Description field, enter: Reset TSDS Enrollment Events.
5. Click Save.
6. With the new "Reset TSDS Enrollment Events" utility selected, click the Run button, and in the pop-up screen that appears, click Run again to run the program and remove all existing TSDS Enrollment Event data.

Web Student Management\Federal-State Reporting\Texas State Reporting\Texas Student Data System (TSDS)\TSDS Unique ID

- WS\SR\TX\TS\TU

2 - Texas Users: The TSDS Enrollment Events process has been added to TSDS. This is a new process that will replace PET exports once TEA accepts TSDS Unique ID Version 3 data files on 4/2/18. Here is a basic explanation for how it will work.

Enhancement
Proj#3553770

1. From 000, navigate to WS\SR\TX\TS\TU and click TSDS Enrollment Events Processing.
2. Verify the School Year is current and the Output Type is Extract, then click Run.
3. Optionally, click "Extract and Export" in order to directly create the text file, and skip to step 6 in these instructions.
4. After extraction, data will be available to be reviewed in TSDS Enrollment Events Maintain. Note: data here is listed by Transmission, where each new extract/export is a new Transmission. Data in the Maintain may be edited, but only to add or remove the new Entry/Exit Verified flag.
5. After review, return to TSDS Enrollment Events Processing and change the Output Type to Export, then Run.
6. Go to View Exported Files/Save Locally for Submission, and select the record recently created. Click the View button to download to your computer.

More information on how this process works will soon be available in written format, as well as via live/recorded webinar.

Special note: As TEA has indicated that only changed information should be included in the files, once the Export option is used, student records encompassed by that specific Transmission will not be extracted again; please do not use Export until ready to upload. Extractions may be repeated as needed, at any time, up until the Export option is used. After an Export file has been created, only student record changes that occur after the last Export will be extracted.

Also, please note that a start date specific to 2018 has been hard-coded into Skyward - 3/12/18. Only student record changes as of this date will be included in the extraction process in order to ensure that records previously reported via PET will not be included in the new process. If the district requires an earlier date than 3/12/18, please create a service call for assistance.

The TSDS Unique ID process will continue as it currently works, up until 4/2 when it will automatically begin using the new file specifications; no changes will be required on the district end for this transition.

Web Student Management\Federal-State Reporting\Texas State Reporting\Texas Student Data System (TSDS)\TSDS Unique ID\TSDS Enrollment Events\TSDS Enrollment Events Maintain

- WS\SR\TX\TS\TU\TE\EM

- 1 - Texas Users: The TSDS Enrollment Events Maintain screen has been updated to allow records to be deleted. The purpose of adding a delete record option in Maintain is for the removal of incorrectly-extracted records only. Please be aware that if correctly-extracted records are removed from Maintain, and the source records are not removed, the next extraction will include the records deleted previously in Maintain. **Correction**
Proj#3696378
- 2 - Texas Users: The TSDS Enrollment Events Maintain screen has been updated to allow records to be deleted. The purpose of adding a delete record option in Maintain is for the removal of incorrectly-extracted records only. Please be aware that if correctly-extracted records are removed from Maintain, and the source records are not removed, the next extraction will include the records deleted previously in Maintain. **Correction**
Proj#3690292
- 3 - Texas Users: The TSDS Enrollment Events process has been updated to now exclude students who have the Exclude from PEIMS option checked in their Other PEIMS tab or who have an Entry code that is not crosswalked to a state code (ADA). The process has also been updated to no longer report change records on the Change/Delete report that have already been exported. **Enhancement**
Proj#3675072

Web Student Management\Federal-State Reporting\Texas State Reporting\Texas Student Data System (TSDS)\TSDS Unique ID\TSDS Enrollment Events\TSDS Enrollment Events Processing

- WS\SR\TX\TS\TU\TE\EP

- 1 - Texas Users: The TSDS Enrollment Events processing has been updated to create the delete records when one of the core data elements change. Previously, some record edits were not generating a corresponding delete record for previously-reported data. **Correction**
Proj#3706878
- 2 - Texas Users: The TSDS Enrollment Events processing has been updated to create the delete records when one of the core data elements change. Previously, some record edits were not generating a corresponding delete record for previously-reported data. **Correction**
Proj#3699139
- 3 - Texas Users: The TSDS Enrollment Event process has been updated to correct two issues: **Correction**
Proj#3679872
 1. It will no longer create unnecessary delete records for previously-reported data.
 2. Delete records created by the system will correctly have a code of 4 instead of 04.As part of these changes, all existing records in the Maintain screen with a delete code of 04 will be removed. Please note that as a result of the changes required for this update, there is a chance that double delete records may be created in special circumstances, specifically, for students that had an incorrect race code originally reported for them; if their actual enrollment data is edited and a delete record is then required to remove their original data, they will have two delete records created instead of just one. On upload to TEA, the first delete will be processed, and the second record will receive a cancellation message.

Web Student Management\Federal-State Reporting\Texas State Reporting\Texas Student Data System (TSDS)\TSDS Unique ID\TSDS Unique ID\Export Students Needing a Unique ID

- WS\SR\TX\TS\TU\TU\EX

- 1 - Texas Users: To correct an issue specific to 2017-18 reporting, the TSDS Enrollment Events will now check the Change History records for the 2018 School Year so that records that were changed prior to the TSDS Enrollment Events Start Date will be reviewed. This means that if a student's enrollment data is edited, and the new date occurs prior to the Enrollment Event Start Date, a record with the new date will be created for the student in the extract process. Please note that since the original record was reported via PET, Skyward will not create a copy of the original record with the Delete flag added; this will need to be manually adjusted on TEA's website. To facilitate this, a page has been added to the extract process report called the Change/Delete Report, which will display students with historical changes. The Change/Delete Report lists students by ID, along with either a change or delete reason. This is to allow districts to look these students up to review their previous enrollment data, so that the correct record on TEA's website may be flagged with the Delete Entry/Exit Flag code. **Enhancement**
Proj#3669710
- 2 - Texas Users: The TSDS Enrollment Events and TSDS Unique ID processes have been updated so that duplicate Race codes will not be pulled. **Correction**
Proj#3663045
- 3 - Texas Users: The TSDS Enrollment Events Extract now allows the selection of entities when processing. PEIMS-reportable entities are already processed by default; the entity selection area was added in case the district has a reason to not include student data from PEIMS-reportable entities. Additionally, an option to remove data from previously extracted data has been added. Checking this option will remove data from the current transmission and is intended for use when extracted data includes an entity that should not have been extracted. Once the box is checked, verify that only entities requiring extraction are selected and then re-run the process. Please note that the remove data option is only effective on extracted data. Once data has been exported, it cannot be removed from the Maintain screen. These two changes allow districts to prevent non-reportable data from being included in the resulting export file. **Enhancement**
